Introduction

In this report, I present my Financial Statement Audit Coverage Plan for the fiscal years 2005/06, 2006/07 and 2007/08.

As auditor of the government reporting entity, I am required to provide my opinion as to whether the Summary Financial Statements of the government of the Province of British Columbia are presented fairly in accordance with Canadian generally accepted accounting principles. My opinion must be based on an examination that is conducted and reported in accordance with Canadian generally accepted auditing standards.

The Summary Financial Statements are one of the government's key accountability documents to the citizens of British Columbia. The statements report on the Province's financial results against the financial plan. The statements must be comprehensive, accurate, timely and independently verified to maintain the trust and confidence of all readers.

The Auditor General Act indicates that I am the auditor of the Summary Financial Statements and I am eligible to be the auditor of the financial statements of any government organization or trust fund included in the government reporting entity. Each year, I must provide the Public Accounts Committee with a plan for the appointment of auditors for government organizations and trust funds for the following three years.

The audit coverage plan that I present to the Committee must include:

- a list of government organizations and trust funds that the Auditor General proposes to audit directly;
- a list of government organizations and trust funds for which the Auditor General proposes that other auditors be appointed;
- information about the involvement of the Auditor General in the audit of government organizations and trust funds for which other auditors are appointed;
- the results of consultations held with government organizations and trust funds;

- implications of the plan on the budget of the Auditor General; and
- the criteria and selection process for the appointment of auditors for government organizations and trust funds.

The Auditor General Act requires the Public Accounts Committee to approve the plan, including any amendments the Committee makes to the plan before approving it.

In November 2003, the Public Accounts Committee approved my plan for audit coverage for fiscal years 2004/05, 2005/06 and 2006/07. Each year, including this one, I will present for the Committee's approval any changes to the previous year's plan as well as the plan for audit coverage for the next year in the progression (in this report, that of 2007/08).

Financial Statement Audit Coverage Plan for Fiscal Years 2005/06 Through 2007/08

Proposed distribution of financial statement audit responsibilities for government organizations

The government's Summary Financial Statements include financial information from the financial statements of all the organizations included in the government reporting entity. In the 2005/06 fiscal year, the government reporting entity is expected to include 153 organizations. Of those, there will be 5 universities, 21 colleges, 61 school districts, 6 health authorities, 8 hospital societies, 45 Crown corporations, 2 regional authorities and 5 funds.

Changes in coverage from our previously approved plan for the 2004/05, 2005/06 and 2006/07 fiscal years are shown in Appendix A, along with an explanation for each change. The full audit coverage plan, including that which I am proposing for 2007/08, is set out in Appendix B.

I propose to be the auditor of 24, 22 and 21 government organizations for the fiscal years 2005/06, 2006/07 and 2007/08 respectively. Conversely, auditors other than the Auditor General will audit 129, 128 and 128 government organizations in the fiscal years 2005/06, 2006/07 and 2007/08 respectively.

The plan enables the Auditor General to be the auditor of organizations in all sectors of government (i.e. health, education, social services, natural resources, transportation, protection of persons and property). It provides for the Auditor General to be the auditor of organizations that are representative of a homogeneous population (i.e. colleges, school districts, health authorities and hospital societies).

The Auditor General will also be the auditor for, or at least have a significant level of involvement in the audits of, government organizations that:

- have a significant impact on the Summary Financial Statements;
- deliver a core service or have a significant public policy role;
- are subject to a high level of public interest in the program/services being delivered or in current or future issues;
- are significantly funded through appropriations;
- present an inherently high risk to the government with respect to the programs they operate or the role they fulfil; or
- are complex.

The plan is based on the concept that I will undertake the financial statement audit of a particular government organization for only a limited period of time (not to exceed five years) before rotating to audit other government organizations.

The Auditor General Act allows the Auditor General to elect to be the auditor of a newly created government organization or trust fund for the first three years of the organization's or trust fund's existence. The plan included in Appendix B includes four organizations for which I have made this election.

The audit coverage is designed to meet professional standards. Both the Auditor General Act and my profession require me to follow Canadian generally accepted auditing standards. Those standards require the auditor signing the audit opinion on a set of financial statements to have sufficient knowledge of the operations of the organizations making up the financial statements being audited to determine whether the information contained within the financial statements is complete and is fairly presented. This knowledge can be obtained through auditing directly the majority

of total assets, liabilities, revenues or expenses. It can also be obtained by extending procedures as necessary, which involves reviewing audit plans and files prepared by other auditors, determining how issues identified during the audit are resolved, and participating in the communications with the audit committee. These procedures are an important part of the audit program that provides me with a basis to sign the auditor's report on the Summary Financial Statements and to meet my legislated and professional obligations.

In this audit coverage plan, I will not audit directly the majority of the government's total assets, liabilities, revenues or expenses. I will, however, be extending my procedures in 28, 28 and 29 government organizations where I am not the appointed auditor for the fiscal years 2005/06, 2006/07 and 2007/08 respectively.

The proposed Financial Statement Audit Coverage plan meets Canadian generally accepted auditing standards. In my opinion, it is the minimum required to permit me to sign the audit opinion on the government's Summary Financial Statements.

Consultation Process and Results

In developing my first Financial Statement Audit Coverage plan (approved by the Public Accounts Committee in November, 2003), I undertook a comprehensive consultation process with all government organizations, including those I proposed to audit and those where I was not proposing to be the appointed auditor.

The consultations were held with chairs of governance boards and chairs of audit committees, chief executive officers, and engagement partners from private sector auditing firms. In most cases, the consultations were conducted directly, in person or by telephone. For school districts and colleges, which are numerous and geographically dispersed, the consultations were conducted primarily through correspondence. All the government organizations consulted with agreed with the proposed audit coverage.

In the current year, consultations were held only with those organizations for which the appointed auditor had shifted based on the previous plan, or is planned to shift in the 2007/08 fiscal year.

All government organizations consulted with agreed with the proposed audit coverage.

Impacts of the financial statement audit coverage plan on the budget of the Auditor General

The proposed Financial Statement Audit Coverage Plan will have a minimal impact on my budget (appropriation) for the fiscal years 2005/06 through 2007/08.

My objective is to charge organizations for financial statement audit services at the lower of full cost recovery or market. Fees charged by private sector firms for financial statement audit services are monitored where relevant and our billings are not above market rates.

The plan includes varying levels of involvement by my Office. Where I am the appointed auditor of an organization, my Office will continue to charge for services provided. Where I am not the appointed auditor, but need to extend my procedures to meet professional standards, my staff will work with the organization to determine an appropriate fee for this work. The fee proposals that were presented during the consultations held with government organizations were accepted.

The level of involvement my Office has with government organizations will change over time for each organization and, therefore, so will the related fees. The proposed mix of appointed auditors and extended procedures for fiscal 2005/06 anticipates a small decrease in the related recoveries over those of fiscal 2004/05. Over the three-year period covered by this plan, recoveries related to the plan are expected to remain fairly consistent from year to year and will result in a minimal impact on my budget.

Administration of the auditor appointment process

The governance board of each government organization appoints its financial statement auditor—either the Auditor General, if approved by the Public Accounts Committee, or another auditor selected by the board. I will communicate the Committee's decision annually to the board of each government organization following approval of the Financial Statement Audit Coverage Plan by the Public Accounts Committee.

When the approved Financial Statement Audit Coverage Plan calls for a government organization to appoint an auditor from the private sector, I recommend use of a competitive process that is consistent with public sector procurement practices to secure audit services that meet the board's needs and that provides good value for money. I also recommend selection criteria that assess auditor capability, audit strategy, and price.

My staff will assist boards and audit committees in the selection and appointment of auditors by:

- providing a template for a Request for Proposal, including a model Service Agreement for audit services;
- providing information about the availability of fee-for-service process support from the Purchasing Services group in the Ministry of Management Services; and
- being available to provide assistance that could include advice on specific issues or active participation, as an advisor, in the selection and appointment process.

I will request that boards of government organizations include in service agreements with their financial statement auditors appropriate provisions for involvement of the Auditor General in the audit process.

Recommendations

I ask the Select Standing Committee on Public Accounts to approve the changes from the previously approved plan for the fiscal years 2004/05 through 2006/07 as identified in Appendix A.

I ask the Select Standing Committee on Public Accounts to approve the Financial Statement Audit Coverage Plan for the fiscal year 2007/08 as presented in Appendix B of this report.

I ask the Select Standing Committee on Public Accounts to direct me to continue to administer the auditor appointment process as described in this report.
